PROFESSIONAL SUMMARY

Systems and Computer Engineer with 12+ years building web products and 5+ years in digital banking. I take software from idea to production: analysis, planning, architecture, development, testing, and deployment. Experienced in high-traffic web platforms with micro-frontends (React, Angular, Astro), SSR/CSR rendering, Node.js and Python services on PostgreSQL, and infrastructure as code on AWS with Terraform and CI/CD. Practices AI engineering with Claude Code, OpenCode, and MCP: atomic user stories, vertical slices, a Plan → Build workflow, TDD, and risk-based code review.

TECHNICAL SKILLS

Frontend: React, Next.js, Angular, Astro, Stencil, TypeScript, JavaScript, HTML, CSS, micro-frontends, SSR, CSR, PWA

Backend & Data: Node.js, Python, APIs with OpenAPI (OAS), PHP (Laravel, Symfony), PostgreSQL, MySQL, Elasticsearch

Cloud & DevOps: AWS (serverless), Terraform, Docker, CI/CD, Git, GitFlow, Kibana, Dynatrace

Architecture & Methods: Software architecture, requirements analysis, unit testing, Scrum

AI Engineering: Claude Code, OpenCode, Codex, GitHub Copilot, MCP, Context7, skills, AGENTS.md/CLAUDE.md, local models (LM Studio), AI pair programming, TDD, vertical slices

Design: Figma, UI/UX

PROFESSIONAL EXPERIENCE

Senior Full Stack Developer · Digital Division (Analyst I)

Banco de Bogotá | Jun 2022 – Present

- Build high-traffic web platforms for the bank's customers, with architectures designed to scale.
- Develop micro-frontends with React, Angular, Astro, and Stencil, using SSR and CSR rendering.
- Develop Node.js and Python services, libraries, and APIs documented with OpenAPI (OAS) on PostgreSQL.
- Automate serverless infrastructure and deployments on AWS with Terraform and CI/CD pipelines.
- Contribute across the full lifecycle: analysis, planning, architecture, development, testing, and deployment.

Frontend Web Developer

RobinFood | Jan 2022 – Jun 2022

- Analyzed, designed, and developed content management web apps and customer-facing applications with Next.js (React).
- Implemented SSR, PWA, and mobile-first layouts.
- Applied continuous integration and deployment (CI/CD), GitFlow, and unit testing.

Frontend Web Developer

AOS & Sophos Solutions — for Scotiabank Colpatria | Oct 2020 – Jan 2022

- Developed Angular micro-frontends and SPAs for the bank's pre-approved loans product.
- Integrated APIs; deployed and supported frontend and backend services, monitored with Kibana and Dynatrace.
- Worked in a team using the Scrum methodology.

PROFESSIONAL EXPERIENCE (CONTINUED)

Frontend Web Developer

Tita Media | Feb 2020 – Oct 2020

- Built the Titamedia website and developed VTEX e-commerce components and templates for brands such as Mario Hernández, Bata, Prochampions, Panamericana, Samsung Colombia, and Totto.
- Built animations and interactions to improve user experience and navigation.

Full Stack Developer

Insoftar | Aug 2019 – Dec 2019

- Analyzed, planned, and developed new features for ciencuadras.com (Grupo Bolívar) using Scrum.
- Technologies: Angular, PHP (Laravel and Symfony), PostgreSQL, Docker, and Elasticsearch.

Frontend Web Developer

Quadi – Sancho BBDO | Aug 2018 – Jul 2019

- Built the frontend of Colombia Travel — Birds, plus landing pages, websites, email marketing, and banners with HTML, CSS, JavaScript, and jQuery for Bancolombia, Sufi, Seguros Bolívar, Postobón, AKT Motos, Marca País Colombia, and DirecTV.

Software Engineer

DoD Media Group | Nov 2014 – Jul 2019

- Analyzed, planned, developed, and deployed custom CMS-driven web applications with PHP (Yii), WordPress, MySQL, and Apache.
- Developed Inmobiliaria Contreras, Dromedario, and Boyacá se escucha.

Co-founder & Software Engineer

SIA Software | Jan 2014 – Jun 2018

- Co-founded a software studio and helped 10+ companies improve their processes with custom software.

PROJECTS

Creator · Trama (tramafin.com)

Personal project | Present

- Spanish-language platform with 24 free financial tools for Colombia, Mexico, Argentina, Peru, Chile, and Spain.
- Personal side project built in my spare time with Astro; formulas are cited and calculations run on the user's device.

EDUCATION

B.S. in Systems and Computer Engineering

Universidad Pedagógica y Tecnológica de Colombia (UPTC) | 2011 – 2018

LANGUAGES

Spanish: Native | English: A2 (technical reading)
